JOB INTRO/TITLE:
Ordnance Equipment Mechanic

1. Special Duty Summary. The Munitions Systems career field is responsible for the safety, security, life-cycle logistics, and accountability of all non-nuclear munitions, as well as related sub-components and equipment. This career field is also responsible for the production, materiel, and systems operations needed to warehouse, sustain, assemble, account for, and transport munitions in support of national security objectives. Airmen assigned to the Munitions Systems career field develop skills toward gaining industry recognized professional degrees and certifications in Supply Chain Management, Logistics, Project Management, Commercial Driver's License, Hazardous Materials Management, Instructional Trainer, Safety, and more. Related DoD Occupational Subgroup: 164500.

2. Duties and Responsibilities:

2.1. Supply Chain Management: Airmen working in this career field learn to manage munitions materiel and components throughout the supply chain from acquisition to disposal. Airmen will utilize various transportation modes such as air, sea, rail, and ground while managing the shipment of hazardous cargo and components across the global Air Force enterprise. Additionally, they will perform munitions materiel management, logistics, and accounting functions to ensure compliance with Department of Defense Financial Improvement and Audit Remediation (FIAR) objectives. This involves managing inventory processes and controlling auditable source documentation to ensure validity and completeness. Airmen learn how to monitor excess materiel, develop maintenance schedules, and operate inventory management software for materiel accounting, reporting, and configuration tracking. Munitions Airmen will oversee periodic surveillance inspection cycles and coordinate with maintenance activities on reliability status of and corrective actions for components.

2.2. Production and Project Management: Airmen learn the process and art of targeted munitions assembly and mass production to meet mission requirements. They will learn how to collaborate and prioritize operational requirements to optimize internal and external customer support. As their experience increases, Airmen will develop plans, schedules, dynamic teams, and innovative strategies for more complex operations and objectives.

2.3. Resource and Program Management: Munitions Systems Airmen learn to procure, manage, operate, and maintain DoD munitions specific testing equipment as well as a wide range of vehicles and handling equipment commonly used in the private sector such as flatbed trucks, 4k-50k forklifts, 25-40-foot tractor trailers, pallet jacks, pneumatic hoists, and aerospace ground equipment. They will develop the skills and techniques required to manage programs, facilities, personnel, and data in accordance with Air Force, Department of Defense, state, federal and international policies.

2.4. Leadership and Personnel Management: Upon arrival at their first base, Airmen immediately begin learning how to be a crew member during munitions operations. As Airmen gain experience and are awarded the Journeyman skill level they may earn Crew Chief certification, allowing them to lead a small explosive operations team to accomplish the mission, while adhering to explosive safety and Occupational Safety and Health Administration (OSHA) standards. Upon award of the Craftsman skill level, Munitions Systems Airmen are tasked with roles such as Production Supervisor and/or Noncommissioned Officer in Charge (NCOIC) and are responsible for leading several teams within the nine sections of the Flight/Squadron organizational structure. Lastly, as Munitions Systems Airmen continue to refine their leadership skills, they will be awarded the Superintendent skill level. As Superintendents they will have the responsibility to lead multiple NCOIC teams within the Production, Materiel, and System Flights/Sections or assigned as a Senior Enlisted Leader, Major Command Functional Manager, or Career Field Functional Manager.

2.5. Training and Development: The Munitions Systems career field places significant focus on training and development of Airmen. Technical training programs are held at Sheppard AFB, Texas; Beale AFB, California; Field Training Detachments worldwide; and at individual units. Throughout an Airman's Munitions Systems career, they may be expected to attend up to five advancement courses to qualify for key positions, skill level upgrade, and college credits towards the Munitions Systems Technology degree from the Community College of the Air Force. They also have opportunities to earn logistics, acquisition, information technology, and project management certifications, as well as serve in key roles as instructors, advisors, evaluators, managers, and leaders at all Air Force organizational levels. Additionally, Munitions units also establish local recurring training and development programs for all skill levels and ranks, ensuring continued growth for Airmen throughout their career.

3. Specialty Qualifications:

3.1. Knowledge. Knowledge of the following is mandatory: composition and characteristics of munitions and associated items, safety, storage, security and environmental requirements and procedures; techniques for munitions inventory and stock control and other materiel management processes and systems; technical guidance and drawings; precision measuring tools and equipment; handling, use, and disposition of hazardous and nonhazardous materials.

ALANG - Air Technicians interested in converting to AGR status:

Selection for the advertised position does not constitute acceptance into the AGR program.

Once notification of a selection is made, the individual is required to submit a request for AGR medical clearance through the Medical Group, to the State Air Surgeon. The State Air Surgeon will evaluate the request and notify MDG of the member's medical clearance approval or denial.

The information below was taken from ANGI 36-101, 21 April 2022.

5.3 Grade. To accept an AGR position, an applicant's military grade cannot exceed the maximum military authorized grade on the UMD for the AGR position. Reference paragraph 6.6 for proper assignment to position/unit. Enlisted Airmen who are voluntarily assigned to a position which would cause an overgrade must indicate in writing a willingness to be administratively reduced in grade in accordance with AFI 36-2502, Enlisted Airman Promotion/Demotion Programs, when assigned to the position. Acceptance of demotion must be in writing and included in the assignment application package.

5.4 Commissioning of Enlisted Member. Enlisted personnel applying for officer positions must be eligible for commissioning upon application for AGR duty. Assignment to the AGR tour will not become effective until the individual receives a commission in the ANG and as a Reserve of the Air Force and has completed formal training for which an AFSC has been awarded

5.5. Air Force Fitness Standards. AGR Airmen are subject to the provisions of AFMAN 36-2905, Air Force Fitness Program. Airmen must meet the minimum requirements for each fitness component in addition to scoring an overall composite of 75 or higher for entry into the AGR program. For members with a documented DLC which prohibits them from performing one or more components of the Physical Fitness Assessment (PFA), an overall "Pass" rating is required and any DLC must be resolved prior to accession.

5.6 Security Clearance. AGRs must have a current favorable adjudicated personnel security investigation that is commensurate with their currently assigned AFSC. Local security representatives can provide verification of security clearance information using the Defense Information System for Security (DISS)

5.7. Separated for Cause. To be accessed in the AGR program, an individual must not have been previously separated for cause from a previous Reserve Component AGR tour or from any Active Component. Requests for waiver to this policy will be annotated on the AF Form 679 and routed to NGB/A1PP.

5.8. Retainability for an AGR Assignment. Enlisted personnel must obtain sufficient retainability to fulfill an AGR assignment.

5.9. Sanctuary. It is not the intent of the AGR program to bring non-career applicants into the sanctuary zone (18 to 20 years of TAFMS). Anyone whose order, whether active duty (AD) or full-time National Guard duty (FTNGD) other than for training, places them at 18 years or more of TAFMS will require a signed, approved sanctuary waiver in accordance with DAFI 36-2110, Total Force Assignments.

5.10. Inability to attain 20 years TAFMS. AGR applicants should be able to attain 20 years of TAFMS in the AGR career program. Waiver authority of this requirement is The Adjutant General, Commanding General, or designee. Individuals selected for AGR tours that cannot attain 20 years of TAFMS prior to reaching mandatory separation must complete the Statement of Understanding contained in Attachment 3. The HRO will maintain the completed, signed Statement of Understanding.

5.11. Medical Requirements. Applicants for permanent, occasional or AGR deployment backfill tours must meet the requirements outlined in [Chapter 12](#).
